

HOW TO ASSIGN TRAINING AND RUN REPORTS ON EMLEARNING

INTRODUCTION

EMlearning Administrators ("Admins") have the ability to:

- create new user accounts and training groups
- assign training
- generate training reports for their organisation.

This guide provides Admins with step-by-step instructions for assigning training to users and groups in EMlearning, as well as generating training reports.

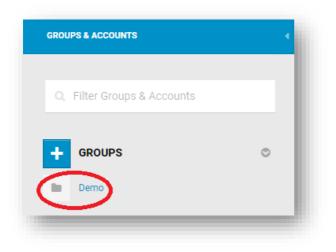

ASSIGNING A COURSE TO A USER

Please note: Prior to assigning training to learners, they must already be registered in EMlearning. For more instructions in how to create a new User account, please view our **EMlearning adding new users guide**.

- 1. Log into your <u>EMlearning</u> account.
- 2. Click on '**Admin**' in the top right corner of the homepage. This will direct you to the Learning Management System (LMS)

3. Click on the group name where the users account is assigned to. In most instances, this will be your company's name.

4. Under "Accounts" on the left side of the screen, click on the user's account. You will know that you are in the right place when the user's name appears on the top of the field:

GROUPS & ACCOUNTS		EDIT	ROLES	LOGINS	LEARNING ACTIVITIES	ETR	TRANSCRIPT	
DEMO								·
Q Filter Groups & Accounts			Drag an image upload or Browse for	a file on	Demo User 3655495			
+ GROUPS	O		your comp	outer	♀ Reset password			
Demo Operations			ACCOUNT I	DETAILS				
Demo Operations DemoBusinessSupport			ACCOUNT I sername 🕝					Demo
		U					,	
	0	U	sername 🕝					Demo Click

5. Once you are in the user's profile, click on the 'Learning Activities' tab:

MLEARNING	≡ Menu Q Search 💿 🛛 Help
GROUPS & ACCOUNTS	EDIT ROLES LOGINS LEARNING ACTIVITIES ETR TRANSCRI
DEMO	
Q Filter Groups & Accounts	Drag an image here to upload 3655495 or Browse for a file on

6. Click on the 'Add Learning Activity' bar:

SHOUPS & ACCOUNTS	EDIT BOLES LODINE. LEAPPOND ACTIVITIES ETH TRAINCHIPT	
EMPLEMENTURA.	Accounts Ander Neiser Learning Activities	
	Use WCAG 2.0 accessible course content where available 0	
Q. Film Groups & Accounts	THE OF HOW TO BOLISHING CONTROL HOME RUSSING A	
-c. Your Groups & Accounts	+ Add Leeming Activity	

7. The Add Learning Activities bar will now expand and a drop down box will appear.

Click the drop down and scroll to select the course you want to enrol the learner in:

Access Type	Earol In	¥
Activity Name	Search or select activity	Ξ
	(Min)Behave with Dave (32764)	
	Approaching an Employee you are concerned about (25311)	
	Bialidubility Group Employee Induction (18419)	
ENROLLED LEARNING ACTIVITIES	Buildability Group Employee Induction (30283)	
	Bullying and Harassment for Employees (30481)	
(MIS)BEHAVE WITH DAVE (32764) services	Bullying and Harassment for Managers and Supervisors (30480)	-

8. Once you have selected the relevant course, click 'Add'

ounts Amber Noter - Learning Activ			
Use WCAG 2.0 accessible	e course content where available 9		
- Add Learning Activity			
Access Type		Enrol In	v
Activity Name		How to Help a Teammate in Distress	=

9. If you want to enrol the user in multiple courses, you must repeat this process for each course.

Well done! You now know how to assign training to a user.

10. The course will now appear in the My Training page of the users EMlearning account. They simply need to click on the course to open it and complete their training.

ASSIGNING A COURSE TO A GROUP

Admins also have the option to create training groups with multiple users. This enables Admins to assign specific training to a whole group of users rather than assigning training to each individual separately. For example, you can create a 'Manager' group and assign specific training course to all Managers in that group, such as the "Bullying and Harassment for Managers and Supervisors" course.

For more information on groups, please visit the Knowledgebase

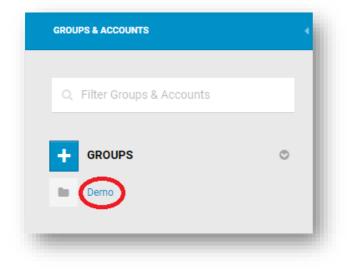

Please note: You do not have to create groups, this is an optional feature of EMlearning that enables you to further target your training and reports. If you choose not to create additional groups, all users will automatically be enrolled in your company group.

1. Log into your EMlearning account

2. Click on the "Admin" page. This will take you to the Learning Management System (LMS).

3. Under "Groups" on the left side of screen, click on the relevant group name.

You will notice that the group now appears on screen.

A STATE STATE AND A STATE AND A STATE

	Wed Nov 21 2018 15:33:31 AEDT	
Creation Date		

4. Click on the 'Learning Activities' tab:

Comparison for the second seco		
GROUP DETAILS	+ Domi	
Creation Date	Wed Nov 21 2018 15:35:31 APD1	
Description	wher group discription	

5. Click "Add an Activity".

+ Add an activity			
			_

6. You will now see the "Add an Activity" bar expand to enable you to specify the access type, activity (course) name, and the roles that the course will be assigned to.

Select the following to assign a course to a group of users to complete

- Access type: "Enrol in"
- Activity Name: (Select the course title you would like users to complete e.g How to Help a Teammate in Distress)
- Role: Whether you want admins or users to access the course.
- Click: "Add Activity"

ccess Type	Enrol In	\odot
ctivity Name	How to Help a Teammate in Distress	0
ole	user	0
		Add Activity

7. The course will now appear in the "Enrolled Learning Activities" for Users below.

ser)		
Bullying and Harassin	sent for Employees (30481)	
Bullying and Harassn	sent for Managers and Supervis	ots (38480)
COVID-19 Coronaviru	s Prevention (29614)	
Dealing with Workpla	ce Conflict (25561)	
low to Help a Teamma	te in Dattress (34149)	
Injury Management fo	or Managers and Supervisors (2	5472)
injury Management fo	or Workers (25478)	
Cooping Workers Safe V	When Working From Horne - For	Managers and Supervisors (31979)

Well done! You now know how to assign training to a group of users.

The course will now appear in the "My Training" page of each users EMlearning account. They simply need to click on the course to open it and complete their training.

GENERATING REPORTS

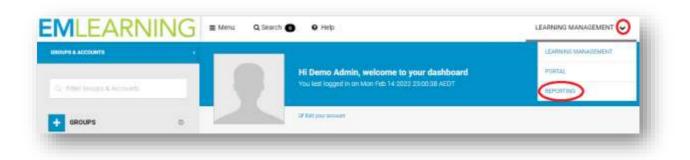

EMlearning provides a range of customisable reporting tools to help Admins track course enrolments, training progress, course completions, and even feedback from your users on their training. Reports can be generated capturing individual user data as well as collating data for a group.

In this section, we will help you to get started with generating reports. If you would like to know more about the range of different reports available and what data they can provide, please visit the <u>Knowledgebase</u>.

- Log into <u>EMlearning.</u>
- Click on the 'Admin' page:

• Click on the 'Learning Management' button on the right side of screen. A drop-down menu will appear. Select 'Reporting'

• The reporting dashboard will now appear, displaying the range of reporting options available.

	Ĥ	9	\$	8	\$	\$	9	2
2.	2'	E.	0			2.	28'	283
ourt Dele Report	Assound Teering Burning Teach	Assessment Report	Gergineer Testing Nation	Constituent Darroy Report	Erat Rent	Literal Twing Recett	ding Energi Terrig Synney	Drog Telong Generary Report
\$	4	\$	4	Ŷ	\$	ŵ	4	\$
X	8	ť?	05m		E	žž		B [*]
Next Taxong	non-perioder Texning Report	Laenar Factoris Report	Providely, Mechanik Report	Tenneg Summery Report	yes Second Training Report	Steel at Naving Sumhary Report	ute Energy Talong Report	tor (none Tanny Spring)

• Determine which report you would like to generate (for example the User Training report).

Hover over the report icons to see a brief description of the type of data each report will provide, then click 'Generate Report':

20	2.	(E)	0	i m		21	28*	233	X	8	progress	and the of training
in the second second				-terminate formation	and the set	Anna a faat a					assigned within	
17 17	4	*		(it .	12	·	-			User Train	ing Repo
Alexand and a	The sector	Marriell-	10000000000	Der Hagelin berreg	2012 201	or transform					GENERAT	E REPORT

- The report template will now appear. You can:
 - use the standard reporting settings and simply select "Generate report" to create the report at this stage, or
 - customise the report further by filtering the data you'd like to include.
- To customise the report, click the arrows to display the customisation options

EMLEARNING	anana e
User Training Report	_
Ing 2 bitmanety of prost	8
Tang 1 Jameser and sugarah particular	-
ing a series of lateral	5
Ne d Sectored	
C investment C in the last of	

• Apply your custom filters to the report template.

Note: In general, there are two key actions you will need to undertake in order to apply custom filters in your report. These are:

• Clicking on check boxes to include specific data in your report. For example:

Columns 🔮			
Select the columns you wish to include in your n	zport.		
Group Columna	User Columna	Training Module(Objective) Columna	Historic Objective Columna
All None	All None	All None	All None
Group ID	Account ID	Training Module(Objective) ID	Started Date
Group Name Group Path	Usemame Account Status	 Training Module(Objective) Title Training Module(Objective) Status 	Completed Date Deadline Date
Role	Registration Date	Started Date	Score
Indented Group Name	Expiry Date	Completed Date	
	Full Name	Progress	
	First Name Middle Name(s)	Score Auto Reset Date	
	Last Name	Deadline Date	
	Date of Birth	Deadline Status	
	Company	Date First Completed	

• Selecting an item, then clicking "Add" to ensure that the item is included in the report.

Important: You must click "Add" otherwise the report will not apply your filter.

You will know when you have selected and added the filter for the data to be included in the report once it appears in a task bar or list below. For example:

Demo (340343) Demo (340343)
Demo (340343)
Include sub-groups ()
All groups for this site will be selected on if no groups are defined. All Image: Add

• Click "Generate Report" on your report. Your report will then be available on screen or as a downloadable file depending out your report output settings.

Tip: You can also save your report template so that you can easily generate the report again in the future. To find out more about saved reports, please visit the <u>Knowledgebase</u>

Well done! You now know how to generate reports in EMlearning.

ADDITIONAL RESOURCES

The EMlearning adding new users guide will show you how to create new user accounts.
